About us

Zymetics Biotech is a technology-driven biotechnology startup focused on the development and application of advanced industrial enzyme solutions for modern manufacturing industries. With a strong technical foundation and process-oriented approach, we deliver high-performance enzymatic formulations designed to improve operational efficiency, process stability, product quality, and industrial sustainability.

Our core strength is built upon more than 18 years of extensive technical and on-plant experience in the Indian sugar and ethanol industries. Through continuous involvement in process optimization, fermentation management, sugar process efficiency, and industrial biotechnology applications, we have developed deep practical expertise in real-time plant operations and performance enhancement.

At Zymetics Biotech, our approach is driven by technical excellence, innovation, and strong determination to create socially responsible and economically viable biotechnology solutions for global industries.

Mission

To become a globally recognized biotechnology company delivering advanced, sustainable, and high-performance enzyme solutions that transform industrial processing through innovation, technical excellence, and scientific advancement.

We envision creating environmentally responsible and economically efficient biotechnological solutions that enhance productivity across modern manufacturing industries.

Vision

- To develop innovative and application-specific enzyme formulations for diverse industrial sectors.
- To provide technically advanced and cost-effective biotechnology solutions that improve process efficiency, product quality, and operational performance.
- To support industries through strong technical expertise, industrial trials, process optimization, and customer-focused services.
- To continuously invest in research, scientific collaboration, and product development for sustainable industrial growth.
- To establish long-term partnerships based on quality, reliability, technical support, and customer satisfaction.
- To contribute toward greener and eco-friendly industrial processing technologies through enzyme-based solutions.

Experienced Team

Customized Solutions

What We Do

At Zymetics Biotech, we provide end-to-end biotechnology and process optimization solutions for industrial operations. From technical evaluation and problem identification to implementation and performance improvement, we support customers at every stage of the process.

Our Core Services

- ✓ Innovative Enzymes Solutions
- ✓ Customized solutions for yield enhancement and operational excellence
- ✓ Performance-driven industrial applications
- ✓ Technical consultancy for process efficiency improvement

We provide complete technical assistance from Trials to Commercial Implementation.

- Process study and technical evaluation,
- Laboratory and trial support.
- Product application support,
- Process optimization and efficiency enhancement,
- On-site technical assistance,

Our Products

Grain Based Distillery

Biozyme G

(Grain Alcohol Booster),

Biozyme LMax

(Thermostable Alpha
Amylase for Starch
Liquefaction),

Biozyme SacMax

(Glucoamylase for
Saccharification),

Biozyme CC

(Bio Culture for De
Compostition & composting)

Active Dry Yeast/Fresh Yeast

(AB Mauri Make)

Molasses Based Distillery

Biozyme M

(Fermentation Booster for C Hvy
Molasses),

Biozyme M Ultra

(Fermentation Booster for B Hvy,Syrup to
Ethanol),

Biozyme Nutriboost

(Urea/DAP Alternative),

Biozyme GMax

(Methane Booster),

Biozyme Mol PR

(Molasses Preservative),

Biozyme Effuetreat

(Spent Wash Recycling),

Biozyme B

(Enzymatic Biocide for Distillery),

Active Dry Yeast/Fresh Yeast

(Ab Mauri Make)

PULP & PAPER

Biozyme Repa

(Blend of Enzymes for Dinking),

Biozyme AP

(Thermostable Alpha Amylase)

Our Products

SUGAR MANUFACTURING

Biozyme A

(Alpha Amylase for Starch Reduction),

Biozyme D

(Dextranase for Dextran Reduction),

Biozyme Clean

(Blend of Enzymes for Microbial Control).

WASTE & WASTE WATER TREATMENT

Biozyme EffuTreat

(Enzymes for Distillery Spent Wash Reuse)

Biozyme Microbz

(Bio-culture for ETP Treatment)

Biozyme Microbz

(Bio-culture for Composting Solid Waste)

FOOD

Biozyme NP

(Neutral Protease for Food Processing))

Biozyme PF

(Pectinase for Fruit Juice Industry)

ANIMAL FEED & POULTRY

Biozyme P

(Phytase for Poultry)

Biozyme PL

(Liquid Phytase for Poultry)

Biozyme Plus

(Enzyme Mix with Probiotics)

Our Products

DETERGENT FORMULATION

Zyma PRO

(Alkaline protease for detergent application)),

Zyma 4E

(Multi Enzymes performance blend),

Zyma Bleach

(Bio -Oxy Bleach system)

TEXTILE PROCESSING

Blozyme DS

(Innovative Blend of enzymes for desizing)

Biozyme Prep One

(Innovative Blend of Enzymes for Desizing, Scouring & Bleaching)

Biozyme Cellac

(Innovative Blend of Enzymes for Stone wash)

Biozyme Feden(Enzymes for Fading)

Biozyme Bliscor

(Enzymes for Bleaching & Scouring)

INDUSTRIAL ENZYMES & PROTIENS

Alpha Amylase,
Dextranase,
Lipase,
Protease,
Cellulose,
Xylanase,
Phytase,
Papain,
Probiotics

Industries we serve

- SUGAR MANUFACTURING,
- MOLASSES BASED DISTILLERIES,
- GRAIN BASED DISTILLERIES,
- WASTE WATER TREATMENT PLANTS,
- BREWERY UNITS
- TEXTILE PROCESSING UNITS,
- DETERGENT MANUFACTURERS,
- FOOD PROCESSING INDUSTRIES,
- BAKERY UNITS,
- COSMETICS MANUFACTURERS,

Trading Portfolio

We are engaged in the trading and supply of industrial and agro-based commodities by ensuring reliable sourcing, competitive pricing, and quality products to meet customer requirements.

- Ethanol,
- E.N.A.
- R.S.
- Molasses,
- Sugar,
- DDGS,
- Fusel Oil,
- Bagasse,
- Organic Fertilizers,
- Potash rich organic manure (KROM),
- Phosphate rich organic manure (PROM)

Zymetics

Let's Work Together

At Zymetics Biotech, we believe industrial success comes through innovation, technical excellence, and strong partnerships.

We partner with manufacturers, distilleries, sugar mills, industrial processors, distributors, and business partners to deliver practical, measurable, and sustainable results.
